

Pill Bottle Saga

One Year Out

The Goal of It All

Reuse thousands of amber and white pill bottles and keep them out of the landfill.

Mail ziploc bags of clean bottles to Matthew 25: Ministries, a highly rated charity. They pack each bag with other medical supplies and ship them where supplies are needed around the world, including within the U.S.

Collecting/Donating

Deliver your pill bottle donations to the Club Room basket or to the Clinic.

Collecting/Donating

These are the best sizes and colors of bottles to donate.

Collecting/Donating

Lesson learned: Oversized or oddly shaped pill bottles are not accepted. Recycle if you can. Costco's OTC bottles are too big. Also, the charity cannot accept glass bottles. Again, recycle.

Preparing

A team of volunteers meets twice a week for one hour each in the Art Studio for the Pill Bottle Bee. We work together and chat and laugh and, yes, even complain. (Cleaning supplies are provided.)

Today's Goal —

**To make this effort viable, we need more Rose Villains to step up.
There are many ways to help.**

Donate your own *already cleaned* bottles with lids.

Take a dozen or so bottles home to clean at your own pace.

Pick up your neighbor's bottles, clean them, and donate.

Other ways to help

To make this effort viable, we need more Rose Villains to step up. There are many ways to help.

Donate your own bottles with lids *already cleaned*.

Take a dozen or so bottles home to clean at your own pace.

Pick up your neighbor's bottles, clean them, and donate.

Bonus Activity: Organize a pill bottle group and work together at a place and time of your own choosing. If you need a mentor, I'd be happy to help.
