Outdoor lifestyle
Communal facilities
Multiple neighborhoods
Ground-level living

Peace of Mind

Physical safety
Financial security
Accessible healthcare
Long-term value
Stable future

Respect for Nature

Resilience planning
Sustainable practices
Climate awareness
Native habitat

Developing a Rose Villa Community Profile

What aspects of Rose Villa are the most important to you? How do you describe Rose Villa to others? What would you like Rose Villa to aspire to be even if we're not quite there today?

Overall--What would you like a CEO candidate to know about what is important to Rose Villa residents?

The answers to these questions build a Community Profile.

The Worksheet on the other side of this page is a starting point. Worksheet items come from multiple sources, including past Let's Talk events, Rose Villa materials, and the feedback from the Holleran survey. Think of the Worksheet as a menu of values to choose from. Residents are encouraged to fill in the blanks to add more items.

- Prior to your Saturday small-group session, please circle the 10 items from your Worksheet you believe are the most important aspects of community life at Rose Villa.
- Your small group will discuss and create a list that will be integrated with other groups at the Sunday meeting and ultimately shared with the CEO Search Committee.
- What Rose Villa examples have you seen that demonstrate the priorities that your group has circled?

Through the 2023 Let's Talk process, we hope to get YOUR input on what you believe is the best way to describe our community. Please review this Worksheet before your Let's Talk session and come prepared to share/learn together.
